Technical Standard:	EN ISO 21420:2020 me-int 100 rev.00	Protective gloves – general requirements and test methods Based on partial application of: EN ISO 21420:2020 and EN 13594:2015.
Intended use:	for off-road cycling activities (MTB, downhill, BMX, etc.) to give limited protection to hands and wrists exclusively against minor injuries such as bruises, lifted stones and debris (NOT suited to protect against hard impacts in case of falls/accidents – NOT to be used on tarmac).	
Size range:	EN 21420: EU 7 – 8 – 9 – 10 – 11 / COMMERCIAL SIZES: S – M – L – XL – XXL.	

EU Type Examination Certificate

Date: 2026/05/20

n. **525262102/OE**

Validity: 2031/05/19

Technical File: **DC-21088/E**

Test report: **RCT n° 4437047/E**

Functions and performance levels: To offer limited protection against minor bruises, lifted stones and debris such as those riders often encounter in off-road biking activities (does NOT PREVENT more severe traumas in case of falls).

EN ISO 21420:2020

Protective gloves. General requirements and test methods:

the gloves satisfy the general requirements of design and manufacturing, innocuousness, ergonomic properties.

me-int 100 rev.00
(applicable parts of
EN 13594:2015)

According to basic requirements tested and assessed (for ex.: seams strength, tear strength, restraints system, abrasion resistance of the palm, knuckle protection, etc.) this glove has obtained an overall PASS level.

Marking:

printed on different labels stitched to the glove, which in combination give the following information:

- **CE Marking;**
- name/logo and complete address of the Manufacturer;
- item designation (unique/unambiguous);
- size indication (commercial size + US + EU);
- additional information on different labels: composition materials, care symbols & instructions, "Made in...", internal codes, contact information etc.
